

# Definitions

- From the Yukon River Salmon Agreement:
  - Stock Restoration: means returning a wild salmon stock to its natural production level
  - Stock Enhancement: means expanding a wild salmon stock beyond its natural production level.

# Potential Restoration Actions

- From the Yukon Chinook Strategic Stock Restoration Initiative, 2014
  1. Habitat Restoration
  2. Beaver Dam Management
  3. Instream Incubation
  4. Hatchery Programs
  5. Removal of Natural Barriers
  6. Removal of Anthropogenic Barriers (i.e. Dams)

# 1-2-4-ALL

- As an individual – What stock restoration action would you support and what would be the goal? (2 minutes)
- In pairs – Share with someone you don't normally work with (3 minutes)
- In fours – Share with the group and select one important idea to share (

# Question

- What stock restoration action would you support and what would be the goal?
  1. Habitat Restoration
  2. Beaver Dam Management
  3. Instream Incubation
  4. Hatchery Programs
  5. Removal of Natural Barriers
  6. Removal of Anthropogenic Barriers (i.e. Dams)
